

BASICS OF ICE HOCKEY

It's a fast sport!
The puck can travel at around 100mph, and the skaters are fast.

The game is played in three 20 minutes periods with the ice resurfaced between the periods.

The aim is to score as many goals as you can – Ice hockey does not end with a draw, so if its level score at the end of 60 minutes, the match will go to overtime and penalties shots.

When the match starts there should be 1 goalie, and 5 players including 3 forwards and 2 Defence from each team.

Then the fun starts, the match faces off.

The players are generally on the ice for about 1-2 minutes before they will switch "lines" (watch the bench here). 3 players may go off, and will be replaced by 3 other payers, and this will continue throughout the match.

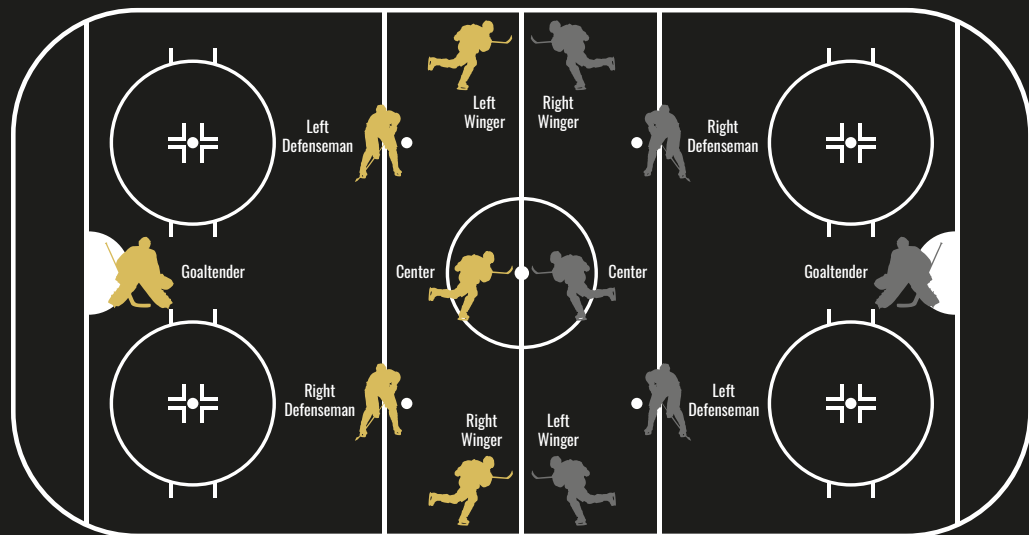

As we said before Ice hockey is a fast sport, and this gives the guys a chance to recover.

Should any player get a penalty, which could be tripping, hooking, slashing, or even too many men on the ice (see above we are only allowed 5 players), the player who got the penalty will go to the penalty box, known as the sin bin.

Most penalties will be 2 minutes, but some are 5 minutes, like fighting, and some penalties can be more than this.

When this happens, the team with the person in the penalty box will be player one player down, known as a Powerplay to the other team.

The announcer will let you know, and the score board will show who's in the Sin Bin!

COACH'S COMMENTS

Friday in Peterborough was a physical game against our local rival. They came out hard and we stayed the course creating chances while playing solid defensively. I loved the way we battled in the third killing numerous penalties and closing out the game.

Saturday was one of our best games defensively and systematically we've played all year. We played fast and wore them down throughout the game. We limited their chances and got the puck out of our zone quickly and efficiently. We need to build off this weekend and keep pushing ourselves as we go into the final stretch. The crowd has been amazing and it's an advantage we are not taking for granted.
